

IRE|BS

Foundation for African Real Estate Research

BENEFICIARY PROFILE

Emmanuel Kofi Gavu

Emmanuel Kofi Gavu from Ghana is currently a PhD student at the Faculty of Spatial Planning, Technische Universität Dortmund-Germany. He is a lecturer at the Department of Land Economy, KNUST Kumasi-Ghana, where he graduated with BSc Land Economy (First Class Honours). He holds an MSc (Geo-Information Science and Earth Observation) from University of Twente (ITC), Enschede-The Netherlands. His main fields of teaching, research and professional interests are: application of GIS in urban management, real estate and transport planning.

Research grants by the IREBS Foundation have enabled Mr. Gavu to undertake fieldwork activities and groundbreaking research into housing markets in Ghana which are the focus of his current PHD. Through IREBS Foundation's travel grants and best paper awards he has also been able to present at conferences, colloquiums and seminars, publish his research outcomes and gain access to a wider network of fellow researchers.

Category of Funding (2017):

**Conference Participation AfRES 2017, AfRES Best Paper Award 2017,
Financing of Primary Research in the context of Ph.D. dissertation**
