

IRE|BS

Foundation for African Real Estate Research

BENEFICIARY PROFILE

Kwame Addae-Dapaah (BSc, MSc, PhD)

I am a senior lecturer at the Bartlett School of Planning, Faculty of Built Environment, University College London, United Kingdom. Before joining BSP on 1 September 2015, I was involved in housing management and financial consultancy, taught for 21.5 years at the Department of Real Estate, School of Design & Environment, National University of Singapore (NUS) and an Affiliated Researcher of the Institute of Real Estate Studies, NUS.

My research interest includes real estate investment in Africa, sustainability of real estate development in urban Africa and urban housing affordability in Africa.

Grants from the IREBS Foundations enable me to attend the African Real Estate Society conferences to effectively engage with conference attendees (students, practitioners and academics) through dissemination of my research findings, seminar discussions and networking with peers to interchange research ideas. All these help to improve my academic profile and career progression.

Category of Funding (2017):

Conference Participation AfRES 2017
